## ABOUT IIMM

Indian Institute of Materials Management is the premier professional Institute of Materials and Supply Chain Management in India. Our mission is to “promote professional excellence in materials management towards national prosperity through sustainable development” through its national network of 54 branches and 19 chapters spread over the length and breadth of the country. IIMM is dedicated to the professional activities including Educational Courses, Executive Development Programs, Seminars, Workshops, In-house Training Programs and consultancy.

## INTERNATIONAL AFFILIATION

To have an effective global interaction on the subject, IIMM is a charter member of International Federation of Purchasing and Supply Management (IFPSM), USA which has its roots in 33 countries from all the six continents, representing views of Purchasing and Materials Management professionals world-wide. Its major aim is to encourage professional development, education and cross-cultural exchange and cooperation in Purchase, Materials Management, Logistics, International Trade and other related disciplines.

## OBJECTIVES OF PROGRAM

Supply chain management spans multiple business units, external vendors and internal supply chain team stakeholders. Effective supply chain management requires the right people, making the right decisions based on the right data and framework. Taking advantage of economies of scale can be a cost-effective way to purchase inventory. Understanding demand from all areas of business and making a single purchase lowers supply chain costs via volume discounts and reduced administrative and warehousing labor costs compared to multiple supply purchases.

There are many ways companies can improve their supply chain management to increase operational efficiency, reduce costs and provide a better customer experience.

- Strategic Sourcing and Supplier relationships Management
- Right Inventory approach
- Risk in Supply Chain
- Better Demand forecasting methods
- Vendor financing and Payment terms logistics best methods
