## **ABOUT IIMM**

The Indian Institute of Materials Management stands as the foremost professional institution in India devoted to the field of materials management. Its mission centre's around fostering professional excellence in materials management to contribute to national prosperity and sustainable development. With a comprehensive presence spanning 52 branches and 19 chapters across the nation, IIMM is committed to offering a range of professional services, including educational courses, executive development programs, seminars, workshops, in-house training sessions, and consultancy services.

## **INTERNATIONAL AFFILIATION**

In order to facilitate productive global discourse on the subject, IIMM holds a charter membership with the International Federation of Purchasing and Supply Management (IFPSM) in the United States. The IFPSM operates across 33 countries spanning all six continents, advocating for the perspectives of professionals in Purchasing and Materials Management on a global scale. Its primary objective is to promote professional growth, education, as well as foster cross-cultural interaction and collaboration in the realms of Purchasing, Materials Management, Logistics, International Trade, and associated fields.

## **OBJECTIVE OF THE COURSE**

The main goal of this course is to provide essential knowledge and skills in key areas of Procurement. The curriculum encompasses fundamental theories and incorporates advancements in technology within the field. This course caters to both newcomers and seasoned professionals, equipping them with the latest expertise to enhance their performance in their respective roles, fostering career advancement and overall growth.

## **FACULTY**

The sessions will be handled by Senior faculty from IIMM, who are specialists in Supply Chain Management domain, and have rich Professional and Industry experience.

## **QUALIFICATION**

Qualifications for participation in this program include:

- Graduate degree in any field with a minimum grade of 50%.
- Engineering diploma holders with a minimum of 2 years of practical experience in a professional setting / SCM.
- Under graduates with min. 5 years of professional experience in SCM.

## **WHO WILL BENEFIT**

Professionals engaged in Supply Chain Management or associated roles within various industries or governmental entities stand to gain from this program. It caters to individuals starting their career journey as well as those seasoned in the field.

The course targets individuals across all sectors of manufacturing or service industries seeking to enhance their skill sets to thrive in the contemporary competitive landscape. Both newcomers and seasoned professionals can leverage this qualification to gain a competitive edge.

## **COURSE SCHEDULE**

The course will be for 6 months duration

Commencement of admission : 18th December 2025

Commencement of Classes : 2nd Week of February 2026

Final Examination : Within ten days after completion of all portions of All Subjects

Announcement of results : Within One Month After Final Examination

These dates are provisional and subject to change.

## **TEACHING METHODOLOGY**

The Classes will be conducted Online on Microsoft Teams Meet Platform in an interactive mode.

The Lecture sessions will be conducted as per details below:

Fridays : 19.30 to 21.00 hours

Saturdays : 19.30 to 21.00 hours

Sundays : Morning Session: 09.30 to 11.00hours

Afternoon Session: 14.00 to 15.30 hours

## **ATTENDANCE**

A minimum attendance of 75% in every subject is compulsory to qualify for the examinations. Nevertheless, exceptions will be made for students with a 50% attendance record upon payment of a penalty fee of Rs. 500. However, individuals availing this exception will not be eligible for distinctions or first-class honors.

## **ASSESSMENT**

Students' performance will be assessed according to the following criteria:

- Internal Assessments (2 Tests): 20 marks (The top 2 out of 3 assessments administered)
- Attendance: 05 Marks
- Final Examination (Online): 75 Marks

Classroom sessions will incorporate diverse interactive components like presentations, videos, and case study discussions. Students are urged to present live case studies pertinent to the subject within the framework of organizational protocols to enrich the learning environment for all participants.

## **COURSE FEES**

The total course fee amounts to Rs. 25,000, inclusive of a one-year full membership of IIMM. Additionally, participants will incur an Inland Courier charge of INR 600 for study materials. For international participants, courier charges corresponding to their locations will apply. Each participant will receive a set of the latest printed textbooks for reference.

Payment of all course fees must be completed before the classes commence. A penalty fee of Rs.500 will be imposed for any delays in payment. All course fees must be settled via demand draft or internet transfer methods such as RTGS or NEFT.

### **ACCOUNT DETAILS:**

Beneficiary Name: Indian Institute of Materials Management

Bank: Canara Bank Branch: Trinity Circle Account Number: 0792101031770
