Theme:

**Focus on Emerging Technologies in
SCM for the success of Business Sectors**

scale

2022

Supply Chain and Procurement process has undergone a transformative change in the last decade, thanks to innovative technologies such as artificial intelligence, neural networks, and machine learning. It's an Industry shift drawn from the demand to increase delivery times, make products cheaper, and improve the way companies interact with environment.

Supply Chains face an array of local and global public policy challenges such as:

- Population and wealth growth in rural areas
- Freight movement restrictions in urban environments
- Sustainability, carbon footprints, and emissions regulations
- Trade wars, geo politics, Covid restrictions and economic restructuring

IIMM, Bangalore has always been at the forefront to cater to the needs of the changing scenario by introducing the latest in SCM with its Executive Development Program, training Calendar and its educational activities. IIMM is delighted to present its 22nd Edition of their annual flagship mega event. **SCALE 2022 (Supply Chain and Logistics Exposition)** on the **17th of September 2022** at The Chancery Pavilion, Bengaluru.

SCALE 2022 is an annual flagship event showcasing Supply Chain and Logistics Management. This event will focus on the current issues that are increasingly demanding the attention and skills of every Supply Chain Professional. Innovation is upending every aspect of the supply chain. Smart objects such as autonomous vehicles, delivery drones and mobile robots will take on the same role in the physical world that robotic process automation did in the digital one improving speed, accuracy and efficiency while freeing staff to focus their time and talent on higher-value tasks that require human interaction.

Interactions with leaders from various verticals and discipline will be the highlight of SCALE 2022. Focus areas are the Manufacturing, Logistics and Fast-growing services, including all private and public sectors.

Session topic Includes:

- ◆ Supply Chain Digitalization
- ◆ Omnichannel Supply Chain becoming the Norm
- ◆ AI, ML, Block Chain, IT tools and Analytics in SCM
- ◆ Coping with disruptions in Supply chain
- ◆ Multi-tier- Supply Chain Management

Around 200+ delegates consisting of Head of Materials and Supply Chain Management professionals from various industries shall be participating in this mega event SCALE 2022. The opportunity to network and interact with fellow professional from India and abroad across the supply chain spectrum of industries will be an unique opportunity for the participants.

The event also provides opportunity for organizations to showcase their products and services to the participating delegates and invitees. A commemorative souvenir will be released on this occasion and will reach decision makers of various organizations and members of IIMM.

About IIMM:

Indian Institute of Materials Management is the premier professional Institute of Materials Management in India. Our mission is to “promote professional excellence in materials management towards national prosperity through sustainable development” through its national network of 52 branches and 19 chapters spread over the length and breadth of the country. IIMM is dedicated to the professional activities including Educational Courses, Executive Development Programs, Seminars, Workshops, In-house Training Programs and consultancy.

International Affiliation:

To have an effective global interaction on the subject, IIMM is a charter member of International Federation of Purchasing and Supply Management (IFPSM), USA which has its roots in 33 countries from all the six continents, representing views of Purchasing and Materials Management professionals world-wide. Its major aim is to encourage professional development, education and cross-cultural exchange and cooperation in Purchase, Materials Management, Logistics, International Trade and other related disciplines.
