**‘Digital Advancements: 5G Technology Transforming the SCM Landscape ’**

Date : Saturday, 24th July 2021

 ZOOM MEET

Time : 6.00 to 7.30 pm

**MONTHLY LECTURE PROGRAM**

Dear Members and Supply Chain Professionals,

**“Success is where preparation and opportunity meet” – Bobby Unser**

The need to build resilience into our Supply Chains has been driven home very strongly in the last couple of years due to the struggle for geopolitical supremacy and disruptions witnessed post the pandemic. Towards this end , most businesses have turned to technological interventions to build in resistance and agility.

In this month’s Lecture program, we bring to you a talk on what 5 G is, how it can impact our businesses, and how to be prepared to adopt and embrace the technology.

**Program details:**

Topic: ‘Digital Advancements: 5G Technology Transforming the SCM Landscape’

**Brief profile of Speaker:**

**Dr. M.H.Kori, PhD, IIT, Bombay**

IETE Vice President,  
Consultant-Telecom Standards Development Society India (TSDSI)
