Supply Chain And Logistics Exposition

Theme :

**AI DRIVEN SUPPLY CHAINS FOR INDUSTRY 5.0:
Delivering Sustainable, People First Performance**

IIMM Bangalore with a primary focus on Supply Chain Management in India, has been conducting its mega annual event SCALE (Supply Chain and Logistics Exposition) from the year 2000 onwards. SCALE celebrating over two decades, reflects on a journey marked by innovation, collaboration and a commitment to shaping the future of supply chain education and skills enhancement.

From its inception in 2000, SCALE has evolved into a premier platform for academicians and industry leaders to converge, share knowledge and foster meaningful connections. We look forward to the continued growth and success of IIMM SCALE in the years to come.

ABOUT IIMM

Indian Institution promoting excellence in SCM in India. The objective is to promote professional excellence in materials management towards national prosperity through sustainable development, manufacturing excellence, through its national network of 56 branches with over 10,000 members. IIMM is dedicated to professional activities including Educational Courses, Executive Development Programs, Seminars, Workshops, In-house Training Programs and Consultancy.

INTERNATIONAL AFFILIATION

IIMM is a charter member of International Federation of Procurement and Supply Management (IFPSM), a union of 44 National and Regional Purchasing associations worldwide with a reach of 2,50,000 members. IFPSM's mission is to encourage professional development, education and cross-cultural exchange and cooperation in Purchase, Materials Management, Logistics, International Trade and other related disciplines.

OBJECTIVES

Reflect on **25 years of progress** in Indian Supply Chain & Logistics sectors

Discuss trends in Digital Supply Chains, ESG Compliance, Policy Shifts & AI-driven Operations

Facilitate Industry - Academia - Government collaboration

Recognize Excellence and Innovation in the field

Strengthen India's resilience to compete on the Global stage

THE FUTURE IS NOW

E-commerce and changing geopolitical conditions have brought greater awareness of the challenges and opportunities in supply chain roles.

Advances in AI and Digital Technologies are enabling supply chains to function faster, cheaper and better - including technology-driven supply chains.
