Export & Import Procedures

Regulations and Procedures are crucial aspects in International Trade and any lapses in conformance could lead to serious financial losses as well as litigation. A thorough understanding of the finer aspects and updating oneself with the changes in the procedures, regulations from time to time is a must for SCM and Finance professionals involved in International Trade.

This workshop is focused on disseminating information on the latest **Incoterms 2020**, and **updates on FEMA** apart from dealing with **Exchange Control Mechanism** and **Letter of Credit** and how to draft Customized LCs.
